**Fun parks**  
 St. Anton: STANTON PARK am Rendl  
 Lech: Funpark / EasyPark in der Schlegelkopfbahn  
 Warth: in der Wannenkopfbahn  
 Sonnenkopf: at the Sattelkopfbahn

**Giant slalom run**  
 Lech: in the Hinterwiesl parallel slalom slope with photo point  
 Zürs: in the Babyllis, in Anton: RENDL RACE on the Rendl  
 Stuben: in the Waldkar, Schröcken: at the Salobert  
 Some crucial parallel slalom slope: Warth: in the Wartherhornbahn, at the Wannenkopfbahn with video recording (SkiMovie)

**Sledding run**  
 St. Anton: Gampen: 4.3 km long illuminated nature sledding run to Nasserin, open daily from 12:00-16:15 h, Tuesdays and Thursdays; night sledding from 19:30-21:30 h  
 Lech: Othang: 1.2 km long illuminated sledding run with snow cannons from Oberlech to Lech. Open all day from 09:00-22:00 h. Sledges can be hired at Bergbahn Oberlech, Warth: Sledding run at the Durfbahn. Sledge hire at base station. Operation during the opening hours of the Durfbahn Warth. Details of the weekly evening sledding events are given on the noticeboard and the website.

**Ski runs are marked and prepared if possible; they are checked and secured against atypical alpine dangers, especially avalanches.**

**Ski routes are marked and only secured against the risk of avalanches; they are generally not prepared or checked, or only in some cases.**

**For information on the current slope conditions refer to the panoramic boards at the cable car stations.**

**Slope closures and avalanche blasting:** It is forbidden and a chargeable offence to enter closed ski runs and ski routes. It is not permitted, without exception, to enter forested areas and walk or sledge on ski runs. From the last checking run, immediately after the last access, ski runs and ski routes are closed due to the danger from slope maintenance vehicles and cable winches. Caution! No safety cordons! When there is a risk of avalanches, never use closed runs. In order to safeguard their own safety, people on runs outside the safeguarded and open ski runs are responsible for obtaining information about blasting from slope management. Caution! During and after fresh snow falls there will be avalanche blasting in the area - risk of avalanches! Avoid areas with avalanche risk at these times! Information at the base stations. In the case of an accident, please report the accident with exact details using the emergency call point, nearest lift station or designated call point. For the telephone numbers for the ski run rescue service for the respective area, refer to the information block. The ski run rescue service is chargeable.

**Ski run preparation:** The use of slope maintenance machines, also while the ski runs are in operation, cannot be avoided. Please be sure to keep a safe distance from these machines. Do not cross below slope maintenance vehicles on steep slopes as these may accidentally slip down. Where the view is restricted, in narrow passages or on cat-tracks, take extra care as slope maintenance vehicles may come the other way. Fresh snow: The Arlberg lifts and cable cars are well known for their efforts to offer perfect ski run conditions every day. However, when fresh snow falls it is unfortunately not always possible to prepare all runs at the same time, even with maximum deployment of slope maintenance equipment. Furthermore, in certain weather conditions fresh snow will not attach itself to the older snow covering below and will slip, forming heaps and bumps, in spite of the preparation work. This cannot be prevented, even with the best ski run management.

**For safe enjoyment in our ski we please follow the valid FIS regulations for skiers and snowboarders and above all be careful and considerate. The complete FIS regulations are available at many lift access points and at www.skiarlb.org.**
